ICON LIMITLESS

ONIX introduces new modular designs from its flagship collection. ICON Limitless, designed to offer unprecedented flexibility. These new models allow for the creation of countless unique designs simply by varying the arrangement of the tiles, redefining the concept of customization in coverings like never before.

Each module is designed to seamlessly integrate with the others, generating everything from geometric patterns to fluid and dynamic shapes. This adaptability makes ICON Limitless the ideal solution for both residential and commercial projects, offering architects and designers a powerful tool to explore and expand their creativity.
